INTEGRATION

IA ELVDry4V1

Four-channel ELV dry-contact module

Flexible low-voltage control for access, alarms, pumps and third-party systems.

AT A GLANCE

Channels	4
Voltage class	ELV
Contact type	Dry contact

TYPICAL APPLICATIONS

- Access control
- Alarm integration
- Pumps and valves

PROJECT AND COMPLIANCE NOTE

Confirm current electrical ratings, load compatibility, installation requirements and applicable compliance documentation with Infinite Automation before specification or installation. Installation and commissioning must be completed by appropriately qualified or licensed professionals in accordance with applicable Australian requirements and current manufacturer instructions. This one-page summary is a product overview and does not replace project-specific installation or compliance documentation.

Discuss specification and obtain current documentation
