

CLIMATE

IA HVAC

Single-zone HVAC controller

Connected control for compatible heating and cooling systems.

AT A GLANCE

Zones	Single
Control	Remote + scheduled
Interface	App

TYPICAL APPLICATIONS

- Single-zone HVAC
- Remote climate control
- Scheduling

PROJECT AND COMPLIANCE NOTE

Confirm current electrical ratings, load compatibility, installation requirements and applicable compliance documentation with Infinite Automation before specification or installation. Installation and commissioning must be completed by appropriately qualified or licensed professionals in accordance with applicable Australian requirements and current manufacturer instructions. This one-page summary is a product overview and does not replace project-specific installation or compliance documentation.

Discuss specification and obtain current documentation
